Research & Development Policy

Shri Pancham Khemraj Mahavidyalaya, Sawantwadi (Autonomous)

(Affiliated to University of Mumbai)

Objectives

- To promote a strong research culture among faculty and students
- To encourage innovation, interdisciplinary research, and knowledge creation
- To establish effective collaboration with industries and academic institutions
- To ensure ethical practices in research, publication, and intellectual property
- To protect and manage intellectual assets generated within the institution

Goals

- Increase the number of quality research publications, patents, and funded projects
- Strengthen industry-academia linkages through MoUs and collaborative activities
- Promote consultancy services for societal and industrial development
- Enhance research visibility at national and international levels
- Maintain high standards of research integrity and publication ethics

Implementation Methods

- Establish dedicated cells/committees such as Research Cell, IPR Cell, and Ethics Committee
- Provide financial support, seed funding, and incentives for research and publications
- Organize workshops, seminars, FDPs, and awareness programs on research and IPR
- Facilitate access to laboratories, digital libraries, journals, and research tools
- Encourage collaborations through MoUs, consultancy projects, and partnerships
- Use plagiarism detection tools and set clear ethical guidelines for publications
- Provide legal and administrative support for patent filing and commercialization
- Regular monitoring and evaluation of research activities and outcomes

Research Promotion

- Encourages faculty and students to undertake quality research
- Provides support for research projects, publications, and conferences
- Facilitates access to research facilities, funding, and resources
- Promotes interdisciplinary and innovative research activities

Consultancy and Collaboration

- Encourages collaboration with industries, institutions, and organizations
- Promotes consultancy services by faculty for societal and industrial benefit
- Establishes MoUs for academic and research partnerships
- Ensures transparency and mutual benefit in all collaborations

Intellectual Property Rights (IPR)

- Protects intellectual creations such as patents, copyrights, and designs
- Encourages innovation and patent filing among faculty and students
- Provides guidance on IPR awareness and legal procedures
- Ensures fair sharing of benefits arising from intellectual property

Publication Ethics

- Promotes ethical standards in research and publications
- Prevents plagiarism, data fabrication, and falsification
- Encourages publication in reputed and peer-reviewed journals
- Ensures proper authorship and acknowledgment practices
